### **State Road 3 work continues in Jennings County**

WCSI

8/14/2014

Sidewalks and ADA-complaint curb ramps are being poured on the west side of South State Street in North Vernon as the Indiana Department of Transportation's (INDOT) \$3 million auxiliary lane project along State Road 3 moves forward. INDOT Spokesman Harry Maginity says that officials anticipate paving work to begin August 25 on the west half of the highway. Dave O'Mara, the state's contractor, will place a deep asphalt base on top of treated. Then, paving crews will add an intermediate lift that can support traffic through the construction zone. Sometime after Labor Day, Maginity says that motorists will be routed to the new west-side pavement section, allowing construction activities to shift to the east side of State Road 3.

### **Kokomo flood mitigation, streetscape contracts awarded**

Kokomo Tribune

Martin Slagter

8/13/2014

Kokomo's Board of Public Works and Safety approved construction contracts for its Union Street streetscape project and Park Avenue flood mitigation project Wednesday. The board awarded the contract for the streetscape project to E&B Paving Inc. for \$413,944. The project will consist of the installation of concrete curbs, sidewalks, drive approaches, road resurfacing, decorative stamped asphalt, brick pavers, planter areas, decorative street lights and signage and landscaping on the three streets and one alley adjacent to the new parking garage on the west side of Union Street between Sycamore and Walnut in the downtown area.

### **County Needs ADA Transaction Plan To Receive Federal Funding**

WBIW

8/12/2014

The Lawrence County commissioners heard a presentation Tuesday from Mike Keeven, of DLZ, about an ADA Transaction Plan they have developed for the county to meet the federal guidelines for the American's Disability Act. If the county does not meet the ADA standards and does not have an ADA Transaction Plan in place the Federal Highway Administration and the Indiana Department of Transportation could withhold funding for highway and bridge construction.

The commissioners asked Keeven in December to gather information on the estimated cost and requirements for the project and report back to the commissioners which he did Tuesday.
